

Great Lakes Region FAASTeam presents:

# **21st Century Aviation Maintenance Training, 4:00- 4:45**

21st Century Aviation Maintenance Training. As the aviation industry advances into the 21st century, the institutions that teach aviation maintenance are challenged to produce graduates who can quickly and efficiently respond to the Next Generation of aircraft being produced. However, the old planes don't suddenly STOP flying, but instead continue to require maintenance actions. In fact the aging of an aircraft is actually quite similar to that of a human! (ie more visits to the Dr., tests are more involved, and more intrusive). The Aviation Maintenance Training school has to identify how it can produce graduates for such a diverse career field.

This year, you can watch most of the Oshkosh AirVenture Safety Seminars via the Web and get Wings Credit. See below for Webinar registration information.

**Directions:** FAA Safety Center Forum-EAA AirVenture 2012- next door to the air traffic control tower.

**A message from the National FAASTeam Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Sat, Jul 28, 2012 - 4:00 pm**

**FAA Safety Center**

3120 Knapp Street

Oshkosh, WI 54901
